Information and Technology Resources (ITR) should take the necessary steps to ensure that external repositories promoting ZTC course sections like the California Virtual Campus (CVC) are functional. All students should be able to utilize CVC to view and register for Hartnell College course sections.

Inclusive Access

Inclusive Access is automatic billing where the instructional materials cost is included in the price of tuition and students must opt out. Inclusive Access is disfavored as it intrudes on student privacy interests and student choice.

See Board Policy 4042
