enhancing and securing technology resources to support and sustain educational services and operational functions. The TLSC helps to promote the clear communication of requirements for the safe and appropriate use of technology by students and employees. The TLSC will also develop protocols for network and data security.

Councils and subcommittees will take evidence-informed actions (for example, using qualitative data, quantitative data, mixed-method, shared experience, etc.) in solving key student and institutional challenges.

Any action items approved by the councils should be reported to appropriate stakeholders after approval by the Superintendent/President.

Councils should work collaboratively, as needed, to attain common goals. It is expected councils will combine expertise and problem-solve together as well as work on individual council tasks. Regular communication between council tri-leads will help to coordinate this approach as well as avoid redundancies.

Following protocols

The following are the recommended tri-chairs and membership for each council.
Tri-chairs are listed first and are in bold.
