

---

Proposed space: Planetarium in Merrill Hall (after new planetarium is complete)

The space would be used as a classroom/performance space for theatre art students. When not in use by theatre arts, the space would open up for other programs to use.

Tutorial/Study/Work Area on Alisal Campus – Dr. Zahi Atallah, Dean of Advanced Technology

Proposed space: Alisal Campus, Rooms A114 and A115

The request is to expand/transform the rooms into a tutorial/study/work area for students at the Alisal Campus.

Fab Lab on Alisal Campus - Dr. Zahi Atallah, Dean of Advanced Technology

Proposed space: Construction Shop AGD109

The proposal is to create an innovation center (Fab Lab) for use by the community. The Fab Lab would be equipped with an array of flexible computer controlled tools and technology. The lab could enhance future enrollments in fabrication, welding, diesel mechanics, sustainable design and construction, and information technology.

More information about the proposals can be found on the CPC webpage:
