3. 16-Week Semester Calendar Update

Ann Wright

Dr. Ann Wright delivered a presentation on the feasibility of moving forward with a 16-week calendar. The proposed calendar was negotiated last academic year and voted down by the faculty association because many did not understand how the calendar would work and felt it was premature. A taskforce was formed and worked with the existing course schedule to determine if a similar schedule could fit into 16 weeks. Ann stated the taskforce identified the most used classrooms and science laboratories to make this determination.

Hartnell College will be nationally recognized for the success of our students by developing leaders who will contribute to the social, cultural, and economic vitality of our region and the global community.

Focusing on the needs of the Salinas Valley, Hartnell College provides educational opportunities for students to reach academic goals in an environment committed to student learning, achievement and success.
